

LEBEL Genealogical Dictionary 2nd Edition

NEW PUBLICATION

This is a limited edition, please order your copy now

Gilles LeBel has the pleasure in presenting his latest work, a publication consisting approximately 700 pages. The primary objective is to unite, in only one volume, the genealogical induction of 22 000 *LEBELS* and conjoined 8 700 marriages.

The author has included in alphabetic order an onomastic index of *LEBEL* names, spouses, along with the largest families which are not associated with our ancestor Nicolas.

This book is an indispensable tool for any *LEBEL*, and Genealogist, concerned with researching the *LEBELS* allied and non allied families.

If this Genealogical Dictionary of the *LEBELS* interests you, please order your copy.
